

you

bismillah alhamdulillah wa salatu salam

on our salah and he was obviously in a

shadow la ilaha illa llah why I shadowed

muhammadan abduhu Rasul my bud said I'm

gonna come I'm didn't have to ask him to

repeat that that are you listening to

and watching it slam tomorrow

broadcasting live today all the way from

here in Sydney Australia host you

services and for the next little bit we

want to be talking about the miracles of

Mohamed Salah Lyon it was salam for

those of you who are not familiar with

the subject of muhammad those who are

watching this for the first time you

don't know a lot about it this is a
great opportunity to learn those of you
that are muslims watching this in the
future we'd like to remind you that
presenting the case of Muhammad in
simple English terms for the non-muslim
is a very good way to give the
invitation of the Dower
so that's what we're going to start with
we're going to be talking about the
Quran and Muhammad sallallaahu assalam
before we read from the Quran we say our
liebelei min ash-shaytani regime which
basically means I seek refuge with Allah
from the evil of the cursed devil and

when I say salatu wassalam this more or
less translates to english as peace and
blessings be upon him when this is
something we say about all of our
prophets before I get started with this
though I would like to give a little
introduction or glossary to the terms
I'll be using when we say Allah we don't
necessarily mean just God because Allah
has a specific meaning in the Arabic
language not just God but the only God
Lila is the word in Arabic for God Allah
hug me is the plural in English you put
a s afterwards the word Islam means the
submission to God to do what he wants
you to do rather than obeying your evil

self or your following your vain desires
so whoever believes in the one true God
that is never having any partners the
God of the universe the God of Adam
Abraham Moses and Jesus and Muhammad
peace and blessing be upon them all and
they want to do what God wants them to
do basically they're saying that they
want to do Islam and Islam a person who
does it is a mu Islam or Muslims so when
I use the terms for those who are not
for me with this this is all it means
I'm going to begin by mentioning some of
the miracles of Mohamed Salah life
Salaam the first and foremost miracle

which all of us are familiar with is the
Quran itself the word Quran in Arabic
does not mean a book the word in Arabic
for book is Khattab although we refer to
the kitab of Allah meaning the book of
Allah when we speak of court on it
actually means that which is being
recited you cannot hold Quran in your
hand because you can't hold a recitation
this is in your throat or in your heart
or in your mind you can hold the book
that represents it but in Arabic that's
called foot high or the most high this is
the scripture of Islam now the Quran was
revealed over a twenty three year period
starting in the year 610 on the

Christian calendar and it continued in
revelation for 23 years until the death
of Muhammad sallallaahu so long it
started with the words *Acorah bismī*
rabbīka alladhī haul up and it ends
depending on if you go by the actual
last specific words or the last or the
last seer revealed is either John or
Allah he will cut the last words were a
llamó Akmal Tilikum dīn Akuma and now
to give translation to that the first
revelation it comes to Muhammad peace be
upon him while he's in a cave in Jabba
Muir the mountain of light out
mekka and the angel comes to him and

orders him to recite when we translate
to English a lot of people use the word
read and this takes us pretty far away
from a meaning here because Akira
actually means to do Quran because it
comes from the same word so if I said
the Quran is recitation means recitation
and I tell you to do if at all I'm
telling you to recite not read although
that's another word for reciting but to
be specific about it because we're going
to be talking about some revelations
before the Quran which testify to this
event
and for instance in the Book of Isaiah
which is in the Old Testament it tells

us in chapter 40 that the one talking
about Muhammad peace be upon him will be
ordered to cry he'll be ordered cry out
what shall I cry out so a crier that's
another word used a long time ago in
England for a person who made
announcements or one who recited he was
the town crier so this is exactly right
because he will say what he hears there
will not be of his own words check it
out when you have a Bible sometime look
at it chapter 40 in the Book of Isaiah
you'll see that this describes exactly
the event that took place in the cave of
Hira anjālī norm now when we talk about

the quran there are those who will say

that he just wrote it himself allah

subhanho wa taala

reveals certain words in the quran that

make it clear have not the unbelievers

considered that if this meaning the

quran were from other than a law they

would find within it many contradictions

well that's a fair challenge isn't it if

you're in doubt about it then see if you

find any contradictions and in another

verse

says if you're in doubt about it bring a

book like it 1,400 years and nobody's

done that I want to read to you from the

Quran and a third challenge when Allah

says this is the Arabic Allah blaming

shaitana regime while in kun kun fear

even women as Allah Allah

Abdi Natha to be sure Ottoman Mythili

water who shall shuhada a comb Minden

allahī in kuntum Saudi King this

translates more or less to the English

saying and if you guys and it's talking

to the ignorant and polycystic of the

Quraish or the tribes of the arab tribes

at the time and to the jews and

christians if you're in doubt concerning

that which we have sent down to our

servant meaning muhammad then bring a

surah like it surah means like chapter

of it and call your witnesses beside the
law if you're truthful i do want to
mention that in the arabic language the
term were plural was use it seems like
it's saying we like there's more than
one Allah but that is because it's the
Royal we because the law cannot be made
plural the word itself can't even be
made plural so whenever you hear we in
the Quran that is simply the Royal we
like when the king or the Queen gives
any decree they say we are decree in the
following and there's only one person
it's the Royal we that verse indicates
to us that if somebody wanted to really
challenge this all they would have to do

is bring a surah like it sure I like it
and if you were going to do it you
probably wouldn't want to try to attack
or compete against surah bakra would you
that's 286 ayahs or verses and it's
pretty complex in fact I am number 282
is like the largest ayah and the whole
Quran it takes a whole page and nobody
would want to even try that one ayah but
there is a surah a complete surah in the
Quran it says all the blame and Shaitan
regime bismillah r-rahman r-rahim in
our tiny Knakal kotha for suddenly
Rebecca one heart in NASH any alcohol a
baton this is the smallest surah of the

Quran chapter 108 sir

al culpa yet nobody is been able to meet

the challenge to produce a chapter like

this in 1400 years now some people have

put things together even put it on the

internet one of the websites used to be

called Sura like it calm it was put

together by some Arabs not Muslim I

don't know if they were trying to attack

Islam or trying to demonstrate his

stupid sense of humor some of the

Muslims became just violently and

vehemently upset about this and they

insisted this website had to be taken

down it was causing international

problems etc etc but I said leave them

alone man it's proof if that's the best
you can do because if you read it it
didn't even make any sense the profound
meaning behind what allah subhanho wa
taala
reveals can't be matched nor can the
beautiful Arabic language the verses of
allah subhanho wa taala in the Quran are
not such
that can be approached by anybody
regardless Muslim or non-muslim nobody
can come up with something like it I
would like to give you a sense though of
what the meaning to the English more or
less would be in our technical code oh

for sure Allah has granted you use the
term we have granted you Muhammad Al
cows are and alcoa is a river in
paradise therefore turn to him in prayer
to your lord and sacrifice to him only
for the one who hates you Muhammad he
will be cut off now the last word used
in this ayah is up top up top have you
know this word how many of you know what
it means up till they used to cut the
tail of the dog off this was something
people still do that today certain kinds
of dogs when they're born they cut the
tail really short that's up time when
you cut something off you cut it off
short and they were making fun of

Muhammad SAW a while it was Salam at the
death of his son when his little son
died it was still young very young I
think a year and a half or something
like this 13 months I don't remember the
exact age but it was a baby and he was
dying and muhammad saw Salam arrived in
time to hold him in his arms and his son
died in his arms the enemies of Islam
began to make fun of him because he had
no sons that had ever survived he never
did have any sons that survived and that
was like his last child born that was a
male and he died so they were saying
you're cut off you're cut off you're up

door because you're not going to have

any genealogy you're not going to have

any sons to continue your

religion and that's true you never had

any sons

yeah grandsons through his daughter

Fatima ready Elana but that's not our

point the point is they made fun of him

for being as they said cut off and Allah

said to him that for sure there's a

river for you

Kothari now most of you know that this

is the river where you're going to take

your first drink from is right and the

prophet's life Salam is going to be

there to offer you that drink right and

we're all looking forward to that

that's kaltura we make go off for that

every day I want that I want to go there

I want to get that drink all of us now

here in this very short short surah

allah has covered a lot of information

mentioning about this river in paradise

dill allah has granted for him so that

he doesn't become don't become concerned

there's something better for you than

what these people are making fun of you

and so just for suddenly rabbika 100

make yourself out to a law just keep

worshiping along and sacrificing for him

because the one that hates you the one

that's making fun of you this is the guy
that's cut off and he's cut off big time
because he's cut off from any posterity
and anything good in this world and
anything good in the next world all of
this is coming in the mean this is from
the tafseer by the way of even kathira
and others and it's narrated on the
authority of aniseed malik read aloha
know that the resocialized sallam said
none of you will have faith till he
loves me more than his father his
children and all mankind that's inside
Bukhari so even though he has no sons
biologically all of us are more doing
him then his son would have been because

why we love him more than we would love
our own father or our own children or
even ourselves so isn't that beautiful
that's a it's beautiful talk about the
opposite of what they said he has more
now there's a few more points that go
along with that not only do the Muslims
love him respect him and honor him more
than their own blood ties but they also
ask for a las mercy and peace be upon
him many times every day when we say
allahumma salli ala muhammad wa ala ala
muhammad Comus allah tala brahim while
al ibrahim in a high me doing my g and
we say this over and over in our salah

and we say it over and over during the
day and a time we mentioned his name
muhammad sallallahu alayhi wasalam many
of you know the famous hadith of the
resources salam which took place right
before the beginning of Ramadan one year
is at the end of Shaban and the Prophet
SAW salam mounted a step he stepped on a
step and he said I mean then he stepped
on the next step and he said I mean and
he stepped up higher and he said I mean
and he came back down they said was that
he said you didn't see it but the angel
jibreel had come to me and there were
three things that he said to him one of
them was that somebody would hear

Muhammad's name and not say so low light

of a Salaam and this person would be

cursed cursed is the one who hears your

name and doesn't say that and he said I

mean so this is really important for us

that we always say that then there were

two others but this isn't our point so

I'm going to just jump off of that and

go on the next thing when we talk about

muhammad sallallahu sallam

there are many of the things in the

Quran the science if you don't have this

book you should get it it's called a

brief Illustrated guide to understanding

Islam you can get it through our website

and get it here at the local radio
station you can get it at the over to
your Center a lot of a lot of places
that you can pick this thing up it was
written by the way our compiled actually
by Ibrahim Abu Harb Ibrahim and he's in
Riyadh Saudi Arabia the illustrations in
it are taken from science books out of
the library with permission of course
showing things that they've only
discovered in the last century about the
earth planets the universe embryology
the rivers the Seas the list goes on and
then it mentions in here the verses of
the Quran that prove for sure this had
to come from Allah because nobody knew

it 1400 years ago they didn't even know
it 140 years ago and here it is in this
amazing book and never with a
contradiction there are some other
points when we talk about the Quran one
of them is when we say nobody can bring
a book like it is there another book on
earth that has around 10 million people
that memorized it huh any book telephone
book encyclopedia dictionary any book is
there any book that was written 1400
years ago in any language of any size at
all that people memorize today and you
get 10 million people memorized it and
that's a joke nobody will believe you

how could it be that this many people

are memorizing and check this out

they're memorizing it in exactly the way

it was recited in the exact language of

foot hop or the classical Arabic and

guess what

around 85% of those people are not Arabs

and Arabic is not their native language

whoa whoa in fact there's no other

religion that has such a book or

anything close to it because no other

religion promotes the idea of memorizing

the text in fact if people did they'd

figure out pretty fast that their

religion was a little weird the catholic

church for more than 1,000 years forbid

anyone anyone who was not authorized

such as a priest or so on to even have a

bible and if you tried to translate the

bible to another language you would be

killed

this was not a joke in the year 1511 in

England the Bible was translated by

William Tyndale from Latin into English

when they found him with it they tied it

to him and tied him up and burned him to

death with the book on his chest that's

a fact they didn't know he had a copy

William Coverdale one of his students

came up with another version of it in

about 1528 or something like that

there was another Bible later 50 years
after that and then in 1611 a group got
together and tried to make another
translation based on older manuscripts
that were Greek from Konya Greek rather
than the Latin trying to get a little
closer to the original and that was
called the authorized version of the
Bible

but guess what it had to be retranslated
the next year because it had so many
mistakes it's true that I read in the
history of translations of the Bible's
English language by ffs so nobody has a
book like Quran that's one want to
mention a few other things about our

prophet sala lillah wa sallam he's
mentioned as I already told you in the
Bible but I want to give you another
reference out of the Bible in the
English Bible what survived we know the
real Bible is not there but just what's
left even it says in Deuteronomy chapter
18 it's talking about that's the Old
Testament ok that says that God's
telling Moses that I'm going to raise up
for the future generations of Israel is
what he's talking about a prophet like
you from amongst their brethren or
brothers I will put my words in his
mouth and he will tell them everything I

command him if anyone does not listen to

my words that the Prophet speaks in my

name I myself will calling to account

tell me what other prophet after Moses

spoke in the name of the law

do you know because the prophets lie

slam always say bismillah bismillah in

the name of the law was there any other

prophet who spoke in the name of the law

anybody no no

give you a minute to think about it

anybody thought about it yet minutes up

it's a New York minute

it's in its ensure enamel which means

the aunt ah

so they mine Nam now this is when Saudi

man or Solomon as we call him in English

wrote a letter he wrote a letter to bilk

east or to Bathsheba and he started it

out like that when he said in who min

sulaymana wa innahu bismillahi r-rahman

r-rahim

it says verily this is from Solomon and

verily in the name of Allah most

gracious most merciful and that's how

every surah of the Quran starts except

one at Alba anyway

imagine exactly what Allah has said that

this prophet will come and speak in his

name and that's woman so Salam we

conclude from this that Muhammad was

predicted in the Old Testament but he's
also predicted in the New Testament
according to the Gospel of John if you
haven't read it you might peek at it
sometime check it out I recommend you
look at chapters 14 and 16 because he's
talking about somebody coming after him
the word in the cone a Greek was
Parakletos that's the way I pronounce it
it's a dead language you don't really
know how they said it but it's what it
looks like on paper there's a it's a
very long word but there's one letter
that looks a little different if you
change that letter the word is exactly
meaning the praised one and that's what

Muhammad means in any case it happens in
the book of John the first chapter the
Pharisees who are the leaders or scribes
for the Sanhedrin which in Arabic is
much with Shura for the temple have
approached Yahya John the Baptist
because he's preaching and healing
people and baptizing them and you know
he's fasting and doing stuff and there
wondering who are you according to the
Bible they approach him and they say who
are you are you Elijah because in the
Old Testament they're looking for Elijah
to come back one of the prophets they
ran off I mean they killed a lot of

their prophets and tortured him and
stuff but Elijah was one that they
thought was coming back so they said are
you Elijah or are you the Messiah and
that's translated as Christ
or are you that prophet and to each of
these he said no and then they said well
if you're not Elijah and if you're not
the Messiah and you're not that prophet
then who are you we all know about
Elijah's mentioned Old Testament
everybody knows the Messiah is Jesus you
know we know that from the Quran he's
the Messiah that's what a lot said Missy
but who's that prophet who is that
prophet and when you read as I mentioned

chapters 14 and 16 there's some other
references in Matthew and other places
in the Bible even surviving you know who
it is is none other than Muhammad's
Allah while he was solemn now I want to
make this comparison when it says in
Deuteronomy a profit from their brethren
who are the Brethren to the Bene Israel
who are the Brethren because these are
descendants of is Haq or Isaac but Isaac
had a brother
Ishmael or Ismail and who are the
descendants of Ishmael the Arabs then
where did mommy come from
so I Salam from Abraham Ibrahim through

Ishmael

exactly and if they said no no no cuz

some of them have told me no no that's

talking about Jesus really it said a

prophet like Moses a prophet like Moses

right

so let's look and see let's make our own

comparison Moses Jesus Mohammed peace be

upon all of them Moses was born how

miracle birth or normal normal but

separated from his mother early on right

okay

prophet muhammad saw salaam was born

miracle or normal but he also was

separated from his mother early on

because they took him to have a wet

nurse that took care of him when he was
a baby and his dad died before he was
born then his mother died a little after
that all right but he was normal birth
jesus peace be upon him not normal birth
miracle birth no father no father
miracle but he wasn't separated from his
mother he stayed with her all the time
in fact he spoke about his mother from
the cradle when he was a tiny baby
defended his mother against the lies
that they accused her of right Moses
speak from the cradle no they said they
according the Bible they put him in a
little thing and put him in the water

and he was floating down and he cried

but that's about it

Moses was grew up to be a normal boy and

then one day became a prophet right so

same for Muhammad's Aslan grew up as a

normal boy when they became Robert Moses

was a shepherd probably Mohammad saw

some was a shepherd

they both had sheep goats stuff like

that but both of them were engaged

physically in fights at some time or

another both a mid killed people said

true Jesus according to them never

killed anybody

according to them he was just you know

very innocent of everything according to

them now this is interesting we could go
through their whole life and compare and
compare and compare and see who is
compared to who Moses had a book
everybody knows that the books of Moses
they always talk about the books of
Moses the commandments that came with
Moses on Mount Sinai right where do they
come where did it start revelation for
Moses starts on Mount Sinai right is
that a mountain Tory seen his a mountain
probably mama saw Solomon gets
revelation where in the mountain same
and he's we still held the book we still
know about it

ISA or Jesus peace be upon him he starts
immediately when he's a baby and nobody
has ever seen this book have you ever
heard a book called Jesus no so you go
through one by one by one by one you're
going to see which one looks like what
now according to the Bible it said they
believed Moses wrote it but then all of
a sudden whoever wrote it said Moses
died and he was buried that's pretty
hard to do after you're dead right down
you know I died and I was buried you
know but anyway he was died and he was
buried prophet muhammad saw sallam died
and he was buried right according to the
Bible Jesus didn't stay in the ground he

went up to be with the law according to
the Quran he went up to be with the law
according to what we know he did not
point is they're not the same the ones
is the same is Muhammad and Moses peace
be upon
that's a good point you don't have to
elaborate it you don't have to drive
people crazy with it can go on and on
but at least you should mention this to
them that if you really believe your
book read it and think about it problem
with a lot of people though you know
what doesn't matter what you say they're
gonna listen have you shown something no

no no it's not that

see well it says that it says read right

there read re D yeah but you have to

read it in the spirit to understand it

means blue well over here it says up you

P up

yes but brother you have to have faith

it means down okay

whatever many miracles come with

prophets this is how Allah gives them

the clear identification so you know you

got to follow them insert a room for

instance it begins immediately talking

about the Romans have been defeated in

the nearest land which was the Arabian

Peninsula and after this defeat though

they're going to be victorious within
three to nine years it's a word in
Arabic that means three to nine years
and sure enough they were badly defeated
in Antioch and 613 as a result the
Persian swiftly pushed them on all
fronts it was hard to imagine the Romans
would ever defeat the Persians but sure
enough the Quran was right because the
Romans were victorious within three to
nine years it was in the year 622 nine
years after the Romans defeat the two
forces met again on Armenian soil
the result was decisive victory in favor
of the Romans martial law prophecy was

fulfilled now that's a prophecy though
in the time of Muhammad so the
detractors from Islam would say well
well he made it up after the fact never
mind the fact that we know when it was
revealed because people were reciting it
but they'll still say well I don't
believe that
I don't believe that it's not mentioned
in this book but most of you will know
it when I mentioned it to you the most
amazing miracle that I know of dealing
with the Quran and the Prophet Muhammad
SAW the light of Salam is one that I
thought about after I saw a movie called
Back to the Future Haram Haram anyway
